

## Remarks

Upon entry into national phase in the US, applicant cancelled without prejudice the PCT claim set and replaced it with claims that present better fit to accepted US patent practice. Applicant also amended the specifications primarily to replace a reference to a co-owned PCT application that now matured into a US patent, and to correct several syntactic and grammatical mistakes.

Applicant respectfully requests that the above amendment be entered into record and that the application be examined in accordance therewith.

Respectfully submitted

Shalom Wertsberger
